

Brightening Face wash

Brightening niacinamide face wash, incorporating ingredients like Coco Glucoside and Coco-Amido Propyl Betaine creates an effective yet gentle cleansing experience. It provides excellent foam production while being gentle on the skin. It efficiently removes dirt and impurities without stripping the skin’s natural moisture. Niacinamide, adds to this formulation with its brightening and anti-inflammatory properties. It helps to reduce the appearance of dark spots, even out skin tone, and control excess oil production, making it ideal for acne-prone skin. Additionally, niacinamide strengthens the skin’s barrier, locking in moisture and improving the overall texture.

Serial N. O	Raw material Name	Purpose	% or grams
1.	Distilled water	Diluent	19.85
2.	Rose hydrosol	Natural Antioxidant	20.45
3.	Sodium phytate	Natural Chelating agent	0.200
4.	Niacinamide	Brightening Agent	10.00
5.	Glycerine	Natural Humectant	7.000
6.	Xanthan Gum	Natural Thickener	0.850
7.	Coco Glucoside	Natural Surfactant	20.00
8.	Coco amido Propyl betaine	Natural Surfactant	20.00
9.	Jojoba Oil	Natural Emollient	0.500
10.	Brilliant Blue	Food colour	0.050
11.	Geogard 221	Natural Preservative	0.900
12.	Rose essential oil	Natural Fragrance	0.200

Coco Glucoside is a mild, biodegradable surfactant derived from coconut oil and sugar. It is commonly used in skincare and cosmetic products as a cleansing agent. Known for its gentle nature, Coco Glucoside is effective in removing dirt, oil, and impurities from the skin while maintaining its natural moisture balance. It is particularly suitable for sensitive skin, as it is non-irritating and hypoallergenic. Coco Glucoside produces a light, creamy foam, making it ideal for use in body washes, facial cleansers, and shampoos. Its natural origin and gentle cleansing properties make it a popular choice for natural and eco-friendly formulations.

Cocamidopropyl Betaine is a mild, surfactant derived from coconut oil. It is commonly used in personal care products, such as body washes, shampoos, and facial cleansers, due to its gentle cleansing and foaming properties. As an amphoteric surfactant, it can act as both a cleanser and a conditioner. In formulations, Cocamidopropyl Betaine helps to enhance foam stability and lather, creating a rich, creamy texture that improves the user experience. It also functions as a mild skin conditioner, helping to soothe and moisturize the skin, preventing it from drying out after washing. Its low irritation potential makes it suitable for sensitive skin types, and it is often included in formulations for children's or sensitive skin products.

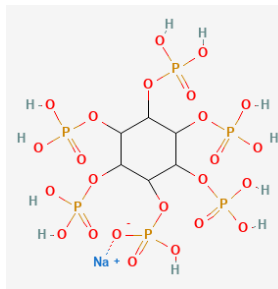

Citric Acid

Citric Acid is a naturally occurring organic acid found in citrus fruits like lemons and oranges. In cosmetics and personal care products, it is commonly used to adjust the pH of formulations, ensuring they are skin-friendly and not too acidic or alkaline. This helps maintain the stability of the product and ensures it works effectively without causing irritation.

Sodium phytate

Sodium Phytate is a natural chelating agent derived from phytic acid found in plant seeds, grains, and legumes. It is widely used in skincare and cosmetic formulations for its ability to bind metal ions,

preventing oxidation and enhancing product stability. This makes it an effective preservative booster, helping to maintain the freshness and shelf life of products. Sodium Phytate is gentle on the skin, non-irritating, and serves as an eco-friendly alternative to synthetic chelating agents, making it a popular choice in clean beauty formulations.

Rose Hydrosol Rose Hydrosol is a steam-distilled botanical essence derived from fresh rose petals, offering a refreshing and nourishing experience for the skin. Known for its natural hydrating, soothing, and toning properties, it helps balance the skin's pH, reduce redness, and provide deep hydration.

Glycerine, also known as glycerol, is a natural humectant derived from plant oils or animal fats. It is widely used in skincare and cosmetic formulations for its ability to attract moisture from the air and retain it in the skin. Glycerine helps to keep the skin hydrated, soft, and smooth by creating a barrier that prevents water loss.

Xanthan Gum Clear is a natural polysaccharide used as a thickening and stabilizing agent in cosmetics and skincare formulations. It is derived through fermentation, typically from corn or soy. Xanthan gum has excellent water-binding properties, allowing it to create a smooth, gel-like texture in products.

Geogard 221 is a Ecocert approved natural broad-spectrum preservative system used in cosmetics and skincare products to protect against microbial growth and contamination. It is naturally derived and commonly used in clean beauty formulations. Geogard 221 is highly effective in preventing the growth of bacteria, yeast, and molds, ensuring the safety and longevity of cosmetic products. It is gentle on the skin and has a low irritation potential, making it suitable for sensitive skin types. Geogard 221 is ideal for use in water-based formulations like lotions, creams, and shampoos, helping to maintain product stability without compromising its natural integrity.

Niacinamide

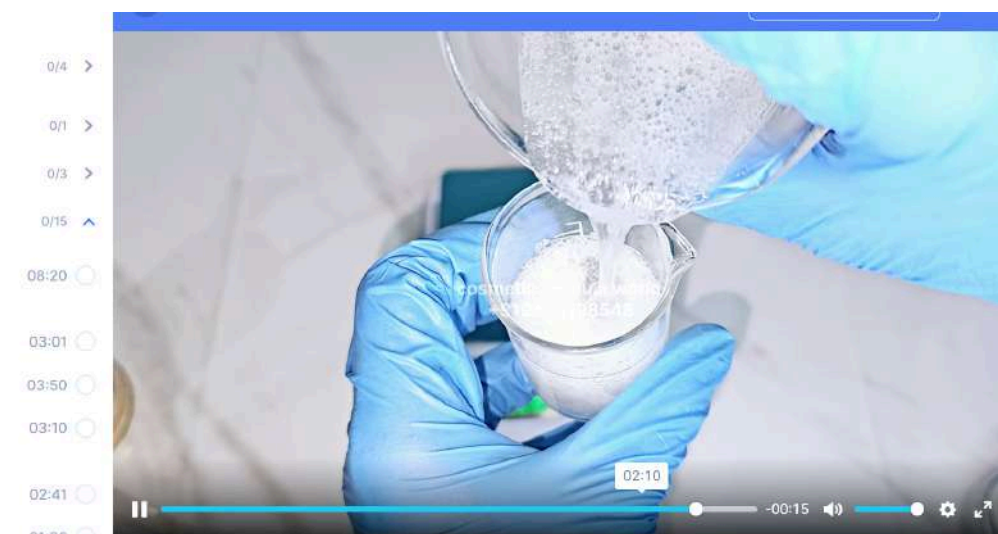

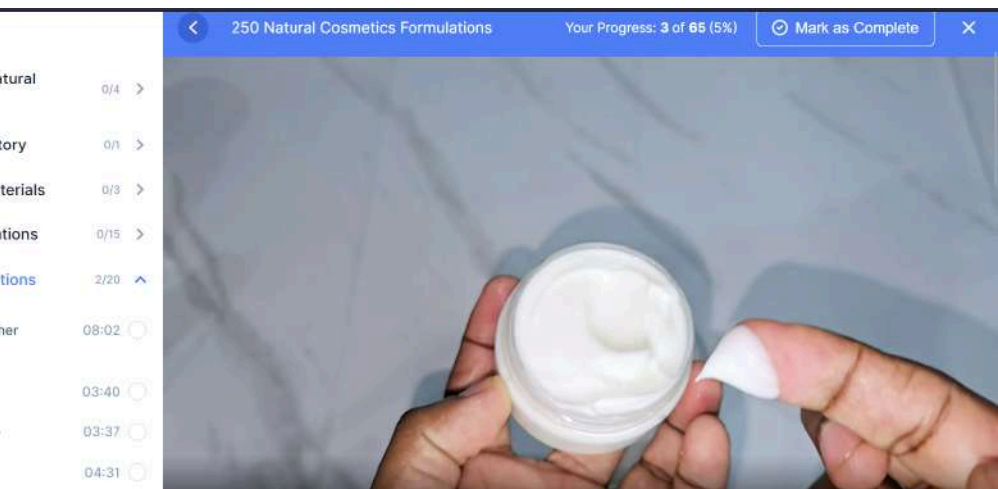

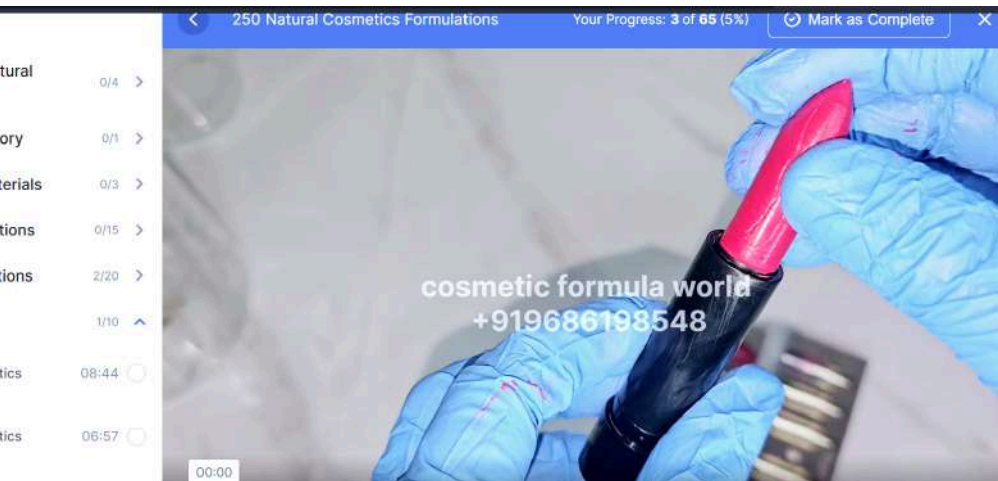

Niacinamide, also known as Vitamin B₃, is a multifunctional skincare ingredient celebrated for its ability to brighten skin, even out skin tone, and reduce dark spots. It helps control excess oil production, minimizes the appearance of pores, and improves skin texture, making it ideal for oily and acne-prone skin. Additionally, niacinamide has anti-inflammatory properties that soothe redness and irritation, while strengthening the skin's barrier to retain moisture and protect against environmental stressors. It also boosts collagen production, promoting firmer, more youthful-looking skin by reducing the appearance of fine lines and wrinkles.

Making Process

1. Take the mentioned quantity of distilled water in a beaker and add rose hydrosol and mix well.
2. Add sodium phytate and mix well.
3. Add coco glucoside and mix well.
4. Add coco amido propyl betain and mix well.
5. Correct the PH to 6 using citric acid.
6. Add Niacinamide and mix well.
7. Separately mix glycerin with xanthan gum and add to the mixture and mix well.
8. Add Rose essential oil and mix well.
9. Add jojoba oil and mix well.
10. Add geogard 221 and mix well.
11. Check the pH if it is out of 5 to 5.5 range correct it with citric acid.

Formula 1

Aloe Hair Growth Vera Shampoo

Do you know that aloe vera is originated from the Indian Peninsula. It's like a stretch plant with no stem roots. The gel inside is known as aloe vera and the yellowish part is called as aloe vera pulp. It is a natural product which is used in many cosmetic products. It is a natural product which is used in many cosmetic products. It is a natural product which is used in many cosmetic products.

Step No.1 Making Aloe vera cream

1. Take two cups Aloe vera pulp and 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.
2. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.
3. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.
4. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

Cosmetic Formula World

Step No.2 Making Aloe vera cream

Step	Ingredients	Quantity
1	Aloe vera pulp	2 cups
2	Aloe vera pulp	1 cup
3	Aloe vera pulp	1 cup
4	Aloe vera pulp	1 cup

1. Take two cups Aloe vera pulp and 1 cup Aloe vera pulp.

2. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

3. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

4. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

5. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

6. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

7. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

8. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

9. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

10. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

11. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

12. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

13. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

14. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

15. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

16. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

17. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

18. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

19. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

20. Add 1 cup Aloe vera pulp and 1 cup Aloe vera pulp.

Full Index

Introduction to the course.....

An overview of the book.....

Chapter 1

What is natural cosmetic.....

Cosmetics regulations

Scope of cosmetic market

Chapter 2.....

Different types of cosmetics products and their science

Cosmetics laboratory setting Procedures and equipment's

Chapter 3.....

Different types of cosmetics raw materials (Humectant, occlusive agents, surfactants, conditioners, colorants, reactive ingredients,) and the science.....

Different types of cosmetics products and the science (Solution, sticks, gels, oil in water, water in oil emulsions etc)

Chapter 4 Hair Care Formulations

Various Hair and scalp problems

Shampoos and shampoo bar Gels

Aloe Vera Hair growth Shampoo from aloe vera leaf & silk amino acid & other surfactants 1

Aloe Vera Shampoo from Aloe Vera Liquid.....2

Aloe Vera Shampoo from Aloe Vera Powder (More convenient method).....3

Aloe Vera Liquid Making from Aloe Vera Leaf.4

Aloe Vera Oil Making from Aloe Vera Leaf.5

Aloe Vera Gel Making from Aloe Vera Liquid.....6

Aloe Vera Gel Making from Raw Aloe Vera Leaf

Soap Nuts Anti Dandruff Ayurvedic Shampoo with soap nuts and herbal powders

Hibiscus Hair Growth Shampoo with Ultra Mild Surfactant (ideal for sensitive scalp).....9

Creamy Hibiscus Shampoo with emulsifier, hibiscus dry flower and other ingredients 10

Moringa Hair Growth Shampoo

Neem Anti Dandruff Shampoo with sodium cocoyl isethionate and other ingredients 12

Onion Hair Growth Shampoo	13
Low Foaming Shikakai Shampoo	14
Natural Surfactant Shampoo ideal for easy bulk scale production for large scale companies	15
Natural Sulfate Free Shampoo	16
Natural Powerful Anionic Shampoo	17
Ayurvedic Shampoo Bar	18

Conditioners

Aloe Vera Leave-on Conditioner Emulsifier oilivem 1000 and other ingredients	17
Leave on Herbal Conditioner (amla , neem , moringa , cetyl alcohol and other ingredients	18
Leave on Onion Hair Conditioner with BTMS 50 and other ingredients	19
Leave on Rice Water Conditioner. With Emulsifying wax and other ingredients	20
Leave On Conditioner with Guar hydroxy propyl tri ammonium chloride	21

Pomades

Leave on Onion Pomade with shea butter and other ingredients	22
Anti Dandruff Clove Pomade	23
Hair Darkening Pomade	24
Herbal Pomade with Herbal Oils.....	25
Neem Ginger Anti Dandruff Pomade with Vitamin E and other ingredients	26
Anti Dandruff Green Tea Hair Butter	27
Coffee Rinse off Conditioner	28
Natural Rins Off Conditioner	29

Hair serums, Hair gels, Hair oils

Hair Growth Hair Serum Vitamin A and other ingredient.....	30
Natural Styling Hir Gel hydrolyzed corn starch and other ingredients	31
Hair Growth Hair Oil	32

Chapter 5 Skin Care products

Various Skin problems

Face and Body washes, Micellar water, make up removals different types (whitening, Anti acne, tear free, Creamy)

Calendula Face and Body Wash	33
------------------------------------	----

Niacinamide Face Cleanser with Niacinamide and other ingredient	34
Salicylic Acid Face Cleanser Propanediol, salicylic acid and other ingredient	35
Salicylic Acid Face Cleanser Type 2 Almond oil, Vitamin E, salicylic acid and other ingredient	36
Rice Brightening Face Wash with Glycerin, xanthan gum, other ingredients	37
Hibiscus Face Wash with hydroxy ethyl cellulose, hibiscus dry flower and other ingredient	38
Honey Face Wash	39
Orange Zest Face Wash with Orange hydrosol and other ingredient	40
Natural Surfactant Face Wash with capryl glucoside and other ingredient	41
Coconut Milk Shower Gel with coconut milk, and other ingredient	42
Hibiscus Shower Gel with lauryl glucoside, hibiscus dry flower and other ingredient	43
Hibiscus Shower Gel Type 2 , hibiscus dry flower and other ingredient	44
Natural Body Wash Sodium lauryl glucose carboxylate and other ingredient	45
Coffee Face and Body Wash. Hyaluronic acid HMW.....	46
Creamy Face and Body Wash. With emulsifier other ingredient	47
Cucumber Face and Body Wash cucumber extract and other ingredient	48
Papaya Face and Body Wash. Capryl glucoside.....	49
Rose Face and Body Wash with coco glucoside	50
Saffron Face and Body Wash with saffron threads and other ingredient	51
Shea Butter Face and Body Wash with Poly glyceryl	52
Tear Free Face and Body Wash Sodium Lactate other ingredients	53
Transparent Face and Body Wash with transparent surfactants clear	54
Micellar Water	55
Smoothing Micellar Water with hyaluronic acid and other ingredients	56
Honey Face Cleanser with sunflower oil, honey and other ingredients	57
Cleansing Oil	58
Cleansing Cream Glyceryl stearate, Tocopherol mixed and other ingredients	59
Make up Removing Oil.....	60
Face and body scrubs Cleansing Cream Oily Coconut Scrub Coconut flesh powder, Rose hydrosol other ingredients.....	61

Avocado Body Scrubber with avocado oil, and other ingredients	62
Cucumber Face and Body Scrubber	63
Sugar Body Scrubber with White crystal, other ingredients	64
Lemon Body Scrubber, with lemon peel powder and other ingredients	65
Cleansing Cream Butter Coffee Scrub with stearic acid	66
Aloe Vera Body Scrub with glyceryl oleate	67
Grape Seed Foaming Body Scrub	68
Rosehip Seed Face Scrub with rosehip seed powder and other ingredients	69
Walnut Body Shower Butter Scrub with wall nut shell powder	70
Cleansing Balm with sorbitan....	71

Hand wash Natural Hand wash Sodium lauryl methyl	72
---	----

Soaps, Cold process, Tear free, pH balanced Moderate

Hard Soap with mixed oils	73
Cold process Egg yolk soap	74
Carrot soap with mixed oils and carrot oil.....	75
Castile Soap. With olive oil.....	76
Cold process Teatree soap with mango butter, other butter and essential oil.....	77
Cold Process Charcoal Soap with charcoal powder and other ingredients	78
Carrot Melt and Pour Soap with carrot juice and soap base	79
Almond Melt and Pour Soap with almond oil and soap base.....	80
Pumpkin Melt and Pour Soap with soap base and pumpkin extract	81
Saffron Melt and Pour Soap with saffron water and soap base.....	82
pH balanced Face and Body Cleansing Soap	83
Surfactant Free Soap with coco butter and other ingredients	84
Goat Milk Surfactant Free Soap	85
Lye Free pH Neutral Soap	86

Serums (brightening, anti-aging) Anti-Aging Face and Neck

serum allantoin and other ingredients	87
Anti-Aging Cucumber face serum. With Niacinamide, and other ingredients	88

Anti-Aging Hyaluronic Acid Face and Neck serum	89
Hyaluronic Acid Face serum with rose hydrosol	89
Anti-Aging Niacinamide Face serum with D panthenol and other ingredients	90
Anti-Aging Vitamin C Face Serum	91
Saffron Face Serum with D panthenol and saffron water and other ingredients	92
Anti-Aging Ferulic Acid Face serum.....	94
Vitamin E Anti-Aging Face Serum	95
Lemon Brightening Face Serum	96
Bedtime Brightening Face Serum	97
Rice Face Serum	98
Whitening Rose Face Serum with Hyaluronic, allantoin and other ingredients	99
Stretch Mark Removing Face Serum	100

Nadhee Naturals

Good morning sir

Am already doing coconut milk shampoo with this method 👉...

I shall combine with this formula na?

10:23 am

Okay no issues

10:26 am ✓✓

You got thick na

10:27 am ✓✓

So no problem

10:27 am ✓✓

Thank you so much sir...

10:27 am

I made using ur aloe vera gel formulation sir...

It came out very well...

Felt so happy , normally after using any gel, it feels heavier..but ur fomulation I felt light weight after using it...

Thank u so much.... 👉

10:31 am

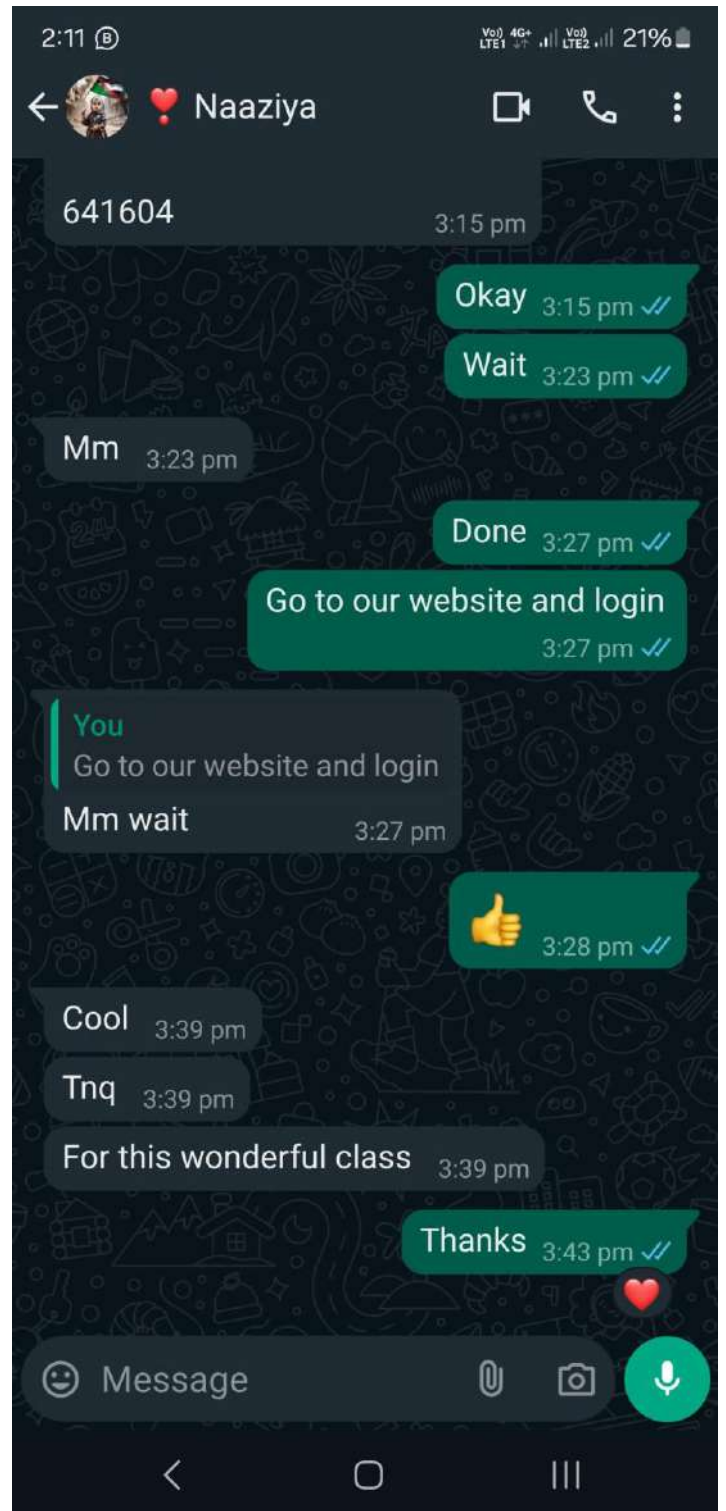

Thanks
